True fact...

Here at The Maynard, we are proven to be able to improve your A-level predictions by as much as **one whole grade**. And that's what allows the Department for Education to officially deem us as **'above average'** for value added.

“The level of care is exceptional, and I truly felt like the teachers listened to my needs and went above and beyond to support me. If I had a project, an idea, even a half-formed thought, there was always someone I could turn to who would help me realise my vision.”
